

## **Farewell from Professor Denzil Miller**

*Continued:*

Please remember that if you would like to 'natter' on Antarctica, marine, science, fisheries and, of course, CCAMLR matters, you can always contact me through Antarctic Tasmania, or even just for a chat as I would love to keep up with what you are doing.

Recalling the Fenland valediction "see you on the ice" and while we may not meet again in person for some time, rest assured that eventually we will.

Consequently, I would like to say 'au revoir' not goodbye to you all.

Professor Denzil GM Miller AM, PhD

Director, Antarctic Tasmania Science and Research
