

# Extending the Tasmanian Regional Forest Agreement

The Australian and Tasmanian governments have committed to establish a 20 year rolling extension to the Tasmanian Regional Forest Agreement (RFA). To inform this process, we are seeking your feedback.

Stakeholders have had an initial opportunity to provide feedback (from 17 April to 12 June 2015) about extending the Tasmanian RFA, as part of the third five-yearly review of the RFA. This initial feedback, and the Independent Reviewer's report to the third five-yearly review of the Tasmanian RFA, has informed the focus of this additional consultation.

The governments will consider any practical improvements to the Tasmanian RFA, to ensure it remains effective and credible in the long term. While the governments are not negotiating a new RFA, or changing the Agreement's fundamental objectives, they have identified the following improvements to the RFA framework:

- **Streamlined and strengthened review and reporting arrangements** – presently the five yearly reviews examine the implementation of the RFA clause-by-clause. The improved review and reporting arrangements will be outcomes focused.
- **Improved and contemporary dispute resolution mechanisms** – these will give the governments more options for resolving issues about the implementation of the RFA.
- **Improved communication and consultation** – the governments will hold annual officials level bilateral meetings, in the interim years between five-yearly reviews, to discuss issues relating to the ongoing implementation of the RFA.
- **Modernisation of the RFA** – where practicable, the governments will update references to superseded legislation and policy.

The Tasmanian RFA is the governments' policy framework for delivering sustainable forest management in Tasmania. In extending the Tasmanian RFA, the governments will maintain the Agreement's key objectives:

- certainty of resource access and supply to Tasmania's forestry industry
- ecologically sustainable forest management and use of Tasmania's productive forests, and
- a Comprehensive Adequate and Representative reserve system.

The Tasmanian forest industry needs to move on and this means removing all old baggage. The Tasmanian forest industry has to advance over the next twenty years without the burden of past mismanagement. The RFA is seen as being one of the tools utilised to support the past and present poor management of the state forests.
